

**Expect more from your floor.**

## **Silikal® Floors—*for when things get hot!***

Sanitary, strong, seamless and “a piece of cake” to install—Silikal floors put bakeries on a perfect footing—in any building, old or new.

# Clean, safe, fast and beautiful

It goes down overnight: sanitary flooring

*A piece of cake to put down—the floor is fully cured and ready for action after only 2 hours. A perfect way to avoid standstills in your operations!*

When things get hot, your floor has to keep its cool. And where do things get hotter than in large professional bakeries where oven-baked cookies, cakes, biscuits and breads are piping hot or packaged and sold to the public. No better place for a highly durable, monolithic, sanitary and anti-skid floor to show just what it is made of. Reactive resin floors from Silikal fit the bill

perfectly and go down in just a few hours—just the thing at a busy bakery where there is no time to stand still!

Silikal floors can be made to meet the stringent German anti-skid grades from R 9 to R 13. They are highly resistant to acids, alkalis, grease, salt and other aggressive substances. Their closed-pore surface is sanitary and

# Beautiful ... floors from Silikal!

for bakers and cake makers everywhere.

Proven in the field  
For over 50 years  
On many million m<sup>2</sup>

exceptionally easy to clean. The harmonious blend of ingredients in Silikal floors—physiologically safe MMA resins—are highly durable and resistant to mechanical stress.

Silikal floors are also beautiful to behold and have proved their lasting quality for decades in virtually every sector of commerce and industry you

can think of. There is a wide selection of colours and attractive design possibilities through the use of coloured flakes or quartz sand. Perfect for demanding floor in manufacturing but also just the thing for tastefully appointed sales-rooms.

**Your call – Silikal!**  
**An overview of the advantages.**

Hygienic and clean ...

- Monolithic, seamless surface
- Resistant to alkalis, acids, greases, oils, salts and other aggressive media
- Easy to take care of

Safe ...

- Anti-skid surface grades
- Wear and tear resistant
- Can withstand hot and cold

Quick and beautiful ...

- Extremely short curing times!
- Easy to lay, even at temperatures below zero
- Selection of appealing colours, e. g. with colored quartz sand or flakes mixtures as standard
