

SILIFIX
RX16
Rapid Repair Mortar

Expect more from your floor.

NEW!

Reactive resin mortar for quick repairs to concrete and construction jobs.

Ready in a flash, as easy as child's play to apply and it cures in no time at all!

Uses:

Filling and levelling of damaged spots, pouring and fixing of profiles and building elements, construction of foundations. Can also be applied at low temperatures. Particularly well suited for rush jobs in interiors and exteriors.

Cures in just one hour! ✓

Stronger than concrete! ✓

Can be applied even in cold conditions! ✓

And working with it is just as simple:

1 ...

Clean the area to be repaired. Mix the repair mortar in the mortar sack or bucket, apply it, smooth or shape it. And that's it!

2 ...

3 ... ready!

After only one hour, the mortar can bear its full load. Downtimes are prevented and time saved!

Reactive resin mortar for quick repairs to concrete and construction jobs.

Examples of application:

Anchoring machinery and steel structures

Anchoring heavy-weight profiles and components

Filling potholes

Renovating chimney tops
